SAN FRANCISCO COUNTY

Willie Brown, Jr.
Chris Daly
Jake McGoldrick

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source.

SAN MATEO COUNTY

Jerry Hill
Marland Townsend
(Vice-Chairperson)

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source of air pollution. A description of the proposed project follows:

SANTA CLARA COUNTY

Liz Kniss
Patrick Kwok
Julia Miller
Dena Mossar

The soil vapor extraction and groundwater treatment systems have been proposed to clean up soil and groundwater contaminated by a leaking underground storage tank at that location. On behalf of the property owner, GeoRestoration, Inc. has proposed a system which will extract contaminated groundwater as well as petroleum vapor from wells drilled at the site. Petroleum compounds will be removed from the groundwater by a device called an air-stripper. Vapor from the airstripper will be combined with that drawn directly from the ground and these will be treated by two carbon adsorption vessels arranged in series. Emissions from the proposed source will be significantly controlled; however, it is not possible to control the source such that emissions are zero. Because operation of this equipment will result in emissions of pollutants into the atmosphere, a permit is required from the District.

SOLANO COUNTY

John F. Silva

SONOMA COUNTY

Tim Smith
Pamela Torliatt

Jack P. Broadbent

**EXECUTIVE
OFFICER/APCO**

The District has determined that the increase in health risks resulting from toxic air contaminant emissions from the proposed source are within acceptable levels, and that the project will comply with all other applicable air pollution control

requirements. Accordingly, the District plans to issue a Permit to Operate for the proposed project.

If you are interested in getting more information on the District's evaluation of this proposed project, you may request copies of the applicable staff report(s) by calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at <http://www.baaqmd.gov/permit/pn.htm>.

PUBLIC COMMENT PERIOD

There is a 30-day period for public response to this proposal. If you wish to comment on the proposed project, you may do so in writing or by e-mail. Alternatively, you may call and leave a telephone message up to one minute in length, so that a District staff member may respond to your message.

Please use the following contact information if you would like to comment on the proposed project:

Mailing address: Atlantic Richfield Company
BAAQMD
Permit Services Division
939 Ellis Street
San Francisco, CA 94109
Attn: Robert Cave

E-mail address: rcave@baaqmd.gov

Telephone Number: (415) 749-5087

The public comment period for this project ends on **March 12, 2004**.
